

4th High Level Meeting on Connected & Automated Mobility

Beyond SAE Levels: Towards Safe & Sustainable Mobility

28.11. – 29.11. 2018

EVENT LOCATION WAGGON-31

The event location WAGGON-31 is located beside one of the most famous sights of Vienna – the “Wiener Riesenrad” (= Vienna giant ferris wheel). The giant ferris wheel was built in 1897 and since then it was an attraction for young and old. The name of the event location WAGGON-31 shows the ties to the giant ferris wheel. Originally 30 cabins – called waggon in German – took their passengers high above Vienna. The WAGGON 31 wants to catch the atmosphere of the turn of the 20th century with its modern architecture. The interior design reminds of the iron bracings used in the construction of the giant ferris wheel. The walls are decorated with reproductions of the steel ferris wheel at the time of its construction. Through a glassroof construction the bar- and lounge area offers especially in the evening a stunning view of the giant ferris wheel. Step inside WAGGON-31 to enjoy top level entertainment, following the tracks of old tradition.

The Vienna Prater is entertaining but can also be a quiet and relaxing place. There is also a large selection of culinary opportunities.
