

INFRAMIX Press Conference

Preparing road infrastructure for mixed vehicle traffic flows

Vienna, Austria, 20/05/2020

Dear Sir/Madam,

We hereby cordially invite you to attend the Press Conference of INFRAMIX Project on Automated Driving, which will be held online from **9:00 to 10:00 am CEST on 27th May 2020**. The press conference will be held in English.

INFRAMIX is a H2020 R&D project preparing the road infrastructure to support the transition period and the coexistence of conventional and automated vehicles. INFRAMIX main target is to design, upgrade, adapt and test (in simulation and in real-world) both physical and digital elements of the road infrastructure, to enable the coexistence of automated and conventional vehicles, in specific scenarios, ensuring an uninterrupted, predictable, safe and efficient traffic; the key outcome is a “hybrid” road infrastructure able to handle the transition period and become the basis for future automated transport systems.

The main highlight for the press conference will be the presentation of the **final results** of the project, from technical and socioeconomic perspective. The project will be represented by:

Mr Martin Russ, Managing Director at AustriaTech, Austria, Project Coordinator at INFRAMIX

Mr Panagiotis Lytrivis, Senior Researcher at ICCS, Greece, responsible for technical and innovation management in INFRAMIX

Mr Bernd Datler, Managing Director at ASFINAG Maut Service GmbH, Austria, responsible for the coordination of the Austrian INFRAMIX tests and international networking in infrastructure management committees

After that, the project representatives will be available for questions.

RSVP, for further details and registration, please, contact us at info@inframix.eu. You may also find information about INFRAMIX at our webpage: www.inframix.eu .

Also, we take the opportunity to invite you to join us during our Final Conference, which will be held online on 26th May 2020, 10:00 – 15:30. Additional details can be found at our Final Conference webpage: <https://www.inframix.eu/inframix-final-event/>

We look forward to welcoming you.
